Piedad Sanchez — Principal
Northridge Middle School (LAUSD)
17960 Chase St, Northridge, CA 91325
PPS8982@lausd.net
(818) 678-5100

Dear Principal Sanchez,

I am applying for the core math teaching position at Northridge Middle School for the 2026-2027 school year. I bring a BSc in Mathematics and Computer Science from Brown, fifteen years as a software engineer at Apple, Cisco, and Goldman Sachs, and five years founding and teaching at Dragon and Crane Dojo — a small private school I built from the ground up. I am turning toward LAUSD because I want to spend the next phase of my work in the place where my own trajectory began: a public school classroom.

Middle school is where students quietly decide whether math is for them, and the core math classroom is where that decision is most often made. I want to be the teacher who notices the decision happening and changes it. I have watched that decision form across the off-the-mat curriculum I write and teach at my dojo — coding, chess, reading, physics — and I know how often the difference between "I can't" and "oh, I see it" comes down to one adult refusing to let a kid give up. The lesson-design and classroom-management muscles are not theoretical: I have already sequenced multi-year curriculum, self-published student materials, and tracked individual progress.

My industry background also lets me answer the question every math student eventually asks — when am I going to use this? I have used it: settlement systems at Goldman Sachs, network management APIs at Apple, clinical AI infrastructure at Deep6 AI. Math was not preparation for those jobs; it was the substance of them, and I want Northridge students to hear that from someone who has lived inside the answer.

Thank you for your consideration. I would welcome the opportunity to discuss how I can best serve Northridge's students and families.

Sincerely,

David Chung
